**Curriculum Report Accreditation Calculations**

Within each Accreditation Area, courses with identical NCES Subject Area, Course Title, Sequence Year, Subject Field 1, Subject Field 2, and Subject Field 3 are grouped together.

Within each group, Term Sequence is used to determine how each course's units are used in calculating the total units for the group.

The Total Units for the Accreditation Area is the sum of the group totals.

**1. Term Sequences are the same. The total is the maximum of the individual units.**

Number	Name	Sub	Crs	Level	Unit	Seq Term	Seq Year	Sub1	Sub2	Sub3	Prov Inst	Crs Type
101	Eng I	10	01	4	0.50	0	0	1	4	0	4321	1
102	Eng I	10	01	4	1.00	0	0	1	4	0	4321	1
	Calculated Group	10	01		<b>1.00</b>		0	1	4	0		

**2. Term Sequences are different and non-zero. The total is the sum of the individual units.**

Number	Name	Sub	Crs	Level	Unit	Seq Term	Seq Year	Sub1	Sub2	Sub3	Prov Inst	Crs Type
201	Eng II Sem 1	10	07	4	0.50	1	0	1	4	5	4321	1
202	Eng II Sem 2	10	07	4	0.50	2	0	1	4	5	4321	1
	Calculated Group	10	07		<b>1.00</b>		0	1	4	5		

**3. Some of the Term Sequences are the same; all are non-zero. The total is the sum of the highest unit value of each subgroup with the same Term Sequence.**

Number	Name	Sub	Crs	Level	Unit	Seq Term	Seq Year	Sub1	Sub2	Sub3	Prov Inst	Crs Type
401	Geometry	20	34	4	0.50	1	0	1	3	3	4321	1

402	Geometry	20	34	4	0.50	2	0	1	3	3	4321	1
412	Hon Geometry	20	34	5	1.00	2	0	1	3	1	4321	1
	Calculated Group	20	34		<b>2.00</b>		0	1	3	1		

**4. Some of the Term Sequences are the same and one or more is zero. The total is the maximum of**  
**a) the sum of the highest unit value of each subgroup with the same non-zero Term Sequence or**  
**b) the highest unit value of courses with Term Sequence = zero.**

Number	Name	Sub	Crs	Level	Unit	Seq Term	Seq Year	Sub1	Sub2	Sub3	Prov Inst	Crs Type

	Calculated Group	20	34		<b>1.50</b>		0	1	3	1		

**5. If you need to exclude one course from a group, use the "Ungroup" checkbox. (not shown)**  
**The checked course will be a group by itself.**
